## Data centers: Managing Energy In and Out - Efficiently and Sustainably

**Tuesday the 23<sup>rd</sup> of September 2025 in Mechelen** we invite you to join Alcadon and your peer Belgian datacenter professionals for a day focused on **energy flows, sustainability and innovation**. Explore Alcadon's datacenter solutions, **power distribution for high-density racks** and how IP PDUs support the EU Energy Efficiency Directive compliance. Learn about **distributed datacenter trends**, AI deployment impacts and enhanced cooling strategies.

Enjoy **expert presentations, demonstrations** and **networking** over lunch - perfect for IT professionals, facility managers, and anyone shaping the future of datacenter infrastructure.

**MIX & MATCH** - Join the sessions you find relevant! And network with others if you skip a session.
